

Featured container modification

Scarbro Construction - Boxman Group completed this modification in October of 2010 at our Auckland depot.

Scarbro Construction

The brief from the client was to provide a functional onsite lavatory unit for their construction staff.

The project was completed with a price tag of \$15,000.

It had to be of a reasonably good standard and well ventilated, however it did not require an insulated interior wall finish, rather an interior repaint was sufficient.

Boxman group installed 2 partitioned toilets, a separate urinal and 2 wash basins fully plumbed. Power and lighting were also installed, with cables running in conduit along interior walls and ceiling.
