How it works

To start the hire process, we ask for your proof of ID, a completed details form and an agreed deposit. We will then assign a unit for you from the day you need it. You provide your own padlock which ensures no one but you or your designated agents can have access to your belongings.

As there is no specified contract time, other than a two week minimum hire period, you can end the hire process at your convenience at any stage. No advanced notice is required. We will check the unit is clear, and then if necessary credit back any days that have been paid for and not used.
