

Code: 42G1

12.2m (40ft) long standard container

Instant storage space

Has your business or facility run out of space, are you overstocked, undergoing a refit, or shifting premises?

Do you need to shift stock to point of sale?

Are you running or attending an event you need to move product or equipment to?

A Boxman container is the perfect solution for your short or long term storage.

The benefits:

- Instant, flexible storage options
- Prompt delivery and pick-up
- Cost effective
- Safe, dry and vermin proof
- Lockable and tamper proof
- Durable steel construction

About this container

The 42G1 is one of the most common container types used in international shipping.

With 67.6m³ of available space, this container can take care of most storage requirements.

To allow for easy handling when empty, these containers come with fork pockets built into the understructure.

Boxman containers

This container has been specifically designed and manufactured according to Boxman Group specifications to meet our customers' high expectations.

These containers are maintained to a 'Food Grade' quality standard, ensuring the best possible equipment is available at all times.

Container features

New build Boxman containers are built to the highest industry specification. They all feature high strength, corrosion resistant steel and additional vents to prevent condensation. Polyurethane coated floors for easy cleaning and security lock-boxes are standard.

All Boxman containers are CSC plated to allow for coastal and international shipping.

Internal Grade	Food Grade

Boxman's new build container features

1. Lock-box

The security lock-box features a covered tab to which a padlock can be fixed. The solid construction will deter even the most determined of thieves.

2. Varnished floor

Most Boxman containers feature a coated polyurethane floor. This reduces maintenance and cleaning costs.

3. Extra Ventilation

All Boxman new build containers are fitted with a minimum of four vents to reduce the risk of condensation and sweating.

4. Higher handles

All Boxman new build containers feature higher handles. This is a great feature that will save your back, and make it much easier to get the leverage you need to open up your container.

BOXMAN
